# Fairbridge Settlement Catalogue

**Section 4 – Rose Cottage Completed 1938. (Louisa Robinson)**

Rose Cottage was the forth cottage to be completed and is the same design as Orange cottage except for a slight difference in the gable on the roof, the gable is in the front on Orange cottage whereas the gable on the western side of Rose cottage. Rose cottage also has a smaller front verandah.

The first cottage mother to take over Rose cottage was Mrs Oates. Mr Oates also moved onto the farm sometime later and became the second Vegetable Gardner. Many of the photos in this section were taken by the Oates family and made available to us by their son Victor Oates.

Rose was always a girl's cottage however there were two young brothers in Rose cottage in 1938. Both boys slept in the cottage mother's quarters rather than the dormitory with the girls.

Rose cottage was removed from Fairbridge in the 80's and its whereabouts is not known at this time.
